USM 33

Compact Ultrasonic Flaw Detector  
with Bright Color Display, light weight, and IP54

- \*Light weight
- \*Reliable
- \*Easier daily work
- \*Long battery life

#### Advanced Features:

Only the functions you need. Simple -no complexity

- Enhanced USM series design with improved industrial features and reliable quality
- English user interface, simple to use and fast, intuitive operation
- Patented color-coded display of legs for making easy angle beam inspection comparisons
- Multiple DAC curve with custom offset capability with Auto-80 for simplified recording at 80% amplitude reference
- No knobs for use in contaminated areas with easy clean-up
- Easy 2 dimensional Data Logger for fast thickness measurement recording and transfer to computer
- More than 8 hours use with internal Battery
- Weighs only 1.8 Kg with battery
